Summary

- **10+ years** of experience in software development.
- **4+ years** of experience in **front-end** and **JavaScript**.
- Most of my activities have revolved around the web and in recent years I have also been working on hybrid mobile applications with **JavaScript** and **REST**.
- Along with my main expertise, I have worked in other fields like **DevOps** and **Linux** system administration to fulfill my own requirements.
- Experience in different teams, as a **front-end developer** and **front-end team leader**, with **Agile** methodologies, including **SCRUM** and **KANBAN**.

Work experiences

Senior Front-End Developer at Vardast

Jun 2019 - Present

[Vardast](#) is the leading AI & machine learning platform with the aim of trading winning products in online marketplaces including Amazon, Alibaba, Digikala, etc.

I was a consultant and senior front-end developer in web projects, and my role and responsibilities included:

- Developing Web Applications with React and Redux
- Managing the road-map of front-end projects

Front-End Team Leader at Snapp

Mar 2017 - May 2019

[Snapp](#) is the first and leading ride-hailing application in Iran. Its mission is to be the most preferred transportation solution in the country.

My role and responsibilities included:

- Re-engineering a single-page application with React, Redux, and TypeScript.
- Developing a React-based UI kit component as an npm package.
- Applying bug-fixes, features, and optimizations for the existing projects based on Vue.js and React (incl. a PWA).
- Leading the front-end team to develop front-end projects.

Full Stack Developer at Rasa Web

Aug 2014 - Feb 2017

[Rasa Web](#) company specialized in technical development and maintenance of a scientific journal publishing platform.

My role and responsibilities included:

- Developing Web Applications with PHP, PostgreSQL, JavaScript
- Configuring Web server, FTP server, Mail server, DNS server, Git, etc.

PHP Developer at Kowsar

Jan 2010 - Jul 2014

[Kowsar](#) Institute is an international publisher and information analytics business that helps institutions and professionals improve their performance, and my role and responsibilities included:

- Developed Web Applications with PHP, JavaScript, MySQL.
- Wrote and implemented scripts to maintain production services.

Projects

Co-founder & Developer at KarBaTo

[KarBaTo](#) is an Iranian startup which provides an online marketplace enabling users to outsource everyday tasks, including cleaning, moving, delivery and handyman work.

I have been responsible for entrepreneurship and project management as well as web development that included:

- Web Applications with Ember.js and react
- Web and Mobile Applications with JavaScript (Cordova & Ionic)
- Android Applications with Android SDK

Coder Conf

[Coder Conf](#) is a yearly conference with development boards. As an example: Node.js, JavaScript, React, etc.

I have held this conference in Iran five times since 2015.

Educations

Bachelor's degree of Software Engineering

2017 - 2019 (2 years)

[Miaad University](#)

Associate's degree of IT

2010 - 2012 (2 years)

[Iran Information Technology University](#)
